Supplies:

Scor-Pal®

Scor-Tape™

Sheet of cardstock 8 1/2" x 11"

Coordinating patterned paper

Ribbon

Stickers or other embellishments

Step 1: Align the left edge of your cardstock to the 3/4" mark. Score at 3 1/2". Repeat on all four sides. Refer to photo.

Step 2: Align cardstock to left fence. Score at 1/2". Repeat on all four sides.

Step 3: Cut away the corner tabs that measure 1/2" wide and 2 3/4", area shown in yellow. It is done at all four corners.

Step 4: If you want to cut the 1/2" edges with decorative scissors do it now. Fold on all scored lines remembering to fold so the indentation, the score line, is on the outside of the fold. Flatten all folds with the flat edge of the Scor-Tool. For this sample I chose not to cut the edges and added a decorative scallop from a separate piece of paper.

Step 5: Measure and cut pieces of patterned paper to decorate the four sides. Glue in place .

Step 6: Use Scor-Tape to attach the sides and form into a box. Fold the 1/2" flaps down.

Step 7: If you wish, decorate the loaf of fruit bread itself. Tie a ribbon around the box and it is all ready to present as a gift.
