Step 1:

Cut red cardstock to 5 1/4" x 10 1/2". Place cardstock on the Scor-Pal, line left edge of paper to the 1/2" mark, and score at 5 1/2" mark. Fold cardstock to create the base for the card.

Step 2:

Cut blue cardstock at 5" x 5 1/4". Line up the long side (5 1/4") on the Score-Pal at 4" mark; score at 4 1/4" and then at 4 1/2" marks. Repeat on the other side.

Step 3:

Create the opening in the center of the blue layer with Circle Nestabilites. Score lines shown as dashes.

Step 4:

Cut a scallop circle from a piece of red cardstock using Scallop Circle Nestabilites. To create the frame, cut out the circle in the middle of the red scallop with Circle Nestabilites.

Step 5:

Glue red scalloped frame to the circle opening on the blue layer.

Step 6:

Fold the scored lines on the blue layer, creating the "shadow box".

Step 7:

Cut white cardstock at 4" x 4". Stamp the images in the center.

Step 8:

Stamp some of the same images on a scrap piece of white cardstock. Cut

them out and place them over the images on pop dots to layer creating a 3D effect.

Step 9:

Glue white cardstock with the stamped images on the top of the red layer as shown.

Step 10:

Use Scor-Tape to adhere both sides of the blue layer onto the red card.

Step 11:

Stamp the image to place in the front of the card. Adhere.

Step 12 (optional):

Cut white cardstock to 5" x 5". Adhere inside of the card.

Step 13:

Embellish as desired.
