Supplies:

Scor-Pal®

Cardstock 8 1/2" x 9 3/4"

Zip Dry or Scor-Tape™

Embellishments

Round or scalloped punch (optional)

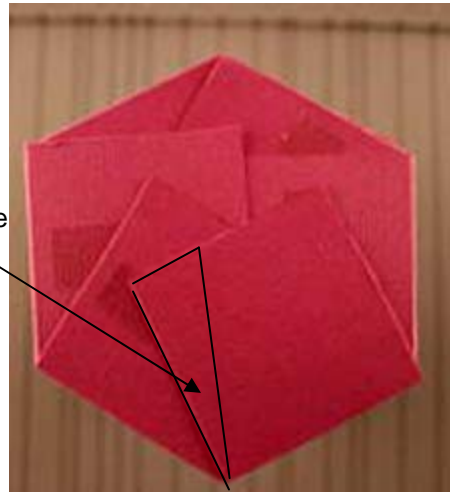

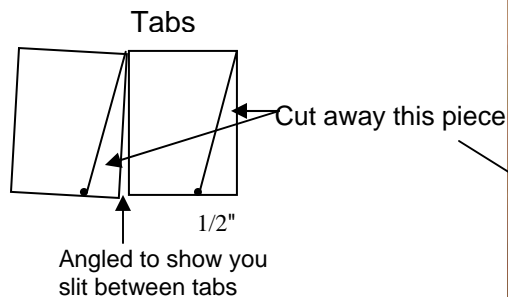

Step 1:

Align paper to left and top fence with 9 3/4" edge along top fence. Score at 1 1/2", 3", 4 1/2", 6", 7 1/2" and 9".

Step 2: Turn paper so 9 3/4" length is along left fence. Score at 1 1/2" and 7". Cut out the tabs, top and bottom in the section from 9" to 9 3/4". You can cut the corners from this remaining tab if you wish. Cut tabs in the manner explained in Box tips. Do not fold yet.

To make the bottom of the tabs look tidy. Lay cardstock on Scor-Mat or use a ruler. Make a mark at 1/2", refer to drawing, on the side of the cardstock with the bump. Mark the top flaps the same.

Step 3:

Fold the side scores first, then fold up all the tabs. Glue the side flap in place inside the first flap. This will create the box. Fold the tabs in the same orientation all around, right over left etc. You may wish to further angle the last tab folded in. Punch a circle or scallop to cover up the centre of tabs. Fill the box and then seal the top in the same manner.

Voliá a little different box!
