Step 1: Begin project by stamping a sheet 4 x 5.25 using black ink. Next, I "filled" the shape using the solid circle stamp and a light green. Then I filled the outer edges using a green marker. I cut out the centre image (the very small square) to mask it off from the rest of the rectangle. Next I took the rectangle stamp and stamped over the image using the light green to give it some extra colour. (see image close to the ink pad).

Step 2: Stamp sentiment on piece punched out from Word Window Punch

Step 3: Score 1/2" from either edge and in the center at 5 1/2" a piece of paper 5.5" x11". Glue each edge to form pocket.

Step 4: Punch a half circle on one side of pocket at the top.

Step 5: Create a card to put into the pocket.
